

2019 AGRONOMY AUSTRALIA CONFERENCE

Take this unique opportunity to join researchers from around Australia at the 19th Australian Agronomy Conference - the peak scientific conference for agronomists.

Held biennially, the 2019 conference, hosted jointly by Charles Sturt University and the NSW Department of Primary Industries at Wagga Wagga NSW, provides a unique opportunity for sponsors to participate in, and support, the future of Australian agronomy.

The 2019 *Cells to Satellite* program will feature leading international and national speakers. Researchers from across Australia and New Zealand will share their latest research findings. Join us in pushing the boundary of current thinking and setting the agenda for future research in agronomy.

Wagga Wagga, located halfway between Melbourne and Sydney, lies on the edge of the sheep-wheat mixed farming belt and a productive horticultural region. Producing 15% of the national agricultural output with a farm gate value of \$5.2 billion, field trips across the productive Riverina will be a highlight of the conference.

Sponsorship provides you with an opportunity to be involved and help shape the future of agronomy in Australia.

Don't miss the opportunity to be part of the 19th Australian Agronomy Conference in Wagga Wagga, 24-29 August 2019.

Sponsorship Opportunities

* a trade display site can be exchanged for either additional tickets or sponsorship of a networking session at the close of a daily conference program which provides an opportunity to welcome and address delegates at the start of the networking session.

BE RECOGNISED AS A KEY SUPPORTER OF AGRONOMY

2019 provides your organisation with an opportunity to partner with Agronomy Australia in supporting attendance and presentations by international and national experts at the Australian Agronomy Conference, supporting student attendances at the conference or participating in the trade exhibition. Use this opportunity to get your staff and business name in front of 300 agronomists from Australia and New Zealand in August 2019.

BUILD A PARTNERSHIP THROUGH SPONSORSHIP

Agronomy Australia is wishing to forge long term relationships with key industry partners and welcomes organisations with a shared vision of improving productivity and sustainability in Australia. As the peak body in Australia for agronomists, it represents academia (40%), government and research organisations (45%) and private industry (15%). The majority of members are graduates with 40% holding a doctorate qualification. Two thirds of our agronomists are male and one third are female.

Bronze sponsorship packages are open to negotiation to suit the needs of the sponsor and can include sponsorship of the conference app or the powerbank recharging station at the conference

* A trade display site can be exchanged for either additional tickets or sponsorship of a networking session at the close of a daily conference program.

The Agronomy Australia national conference is the meeting place for Agronomists, supporting research and the community of Agronomists by connecting Agronomy communities across Australia to each other.

JOIN US IN WAGGA WAGGA

The largest inland regional city located in the Riverina region of New South Wales. Rich in history and agriculture, Wagga Wagga is midway between Sydney and Melbourne with excellent air, rail and road links. The Civic Theatre, boasting a 488 seat auditorium, spacious foyers and close proximity to city accommodation, is a first class facility for a national conference

A CONFERENCE DINNER TO REMEMBER

Temora Aviation Museum was set up by the Royal Australia Air Force in 1941. It is the largest and longest lived of the flying schools established under the Empire Air Training Scheme during World War II. The conference dinner will be held in the Museum and is a unique opportunity to network with the agronomy research community, enjoy our aviation history and support rural Australian tourism

WE LOOK FORWARD TO YOU JOINING AGRONOMY AUSTRALIA AS IT WORKS TO

- support or be actively involved in research, communications and projects,
- facilitate presentations on agronomic research at the national conferences,
- contribute to important matters of advocacy around science policy initiatives
- recognise excellence in research and publication, and
- support early career agronomist development.
